- 100% Non-Toxic
- Eliminates Overspray
- Drift Reduction Formula

Shake Well Before Use

**CAUTION:** KEEP OUT OF  
REACH OF CHILDREN

Net Contents 8 FL OZ (236.6 ml)

Lazer Blue is a non-toxic concentrated colorant designed to be used with herbicides, fungicides, pesticides and fertilizers. Lazer indicates where application spray has been made for the most accurate coverage.

**Directions:** Add 1/2 oz. of Lazer Blue to every gallon of spray mixture. The more Lazer you use, the darker your spray pattern.

The colorant will fade in time with sun and moisture. Lazer is not permanent and will not stain once diluted. Avoid contact with fabric. Lazer can be removed from skin and equipment with several washings.

**CAUTION:** May cause eye irritation. If in eyes, rinse thoroughly with water for 15 minutes. Seek medical attention if irritation persists. Do not ingest. If on skin wash with soap and water.
