

Non Ionic

Surfactant

For Use with Herbicides, Fungicides & Algaecides

Non-toxic* surfactant for aid in coverage and penetration of landscape and aquatic plants

*When used as directed

Active Ingredients:
Non-Ionic Surfactant.....80.0%
Inert Ingredients:.....20.0%
Total:.....100.0%

CAUTION:
KEEP OUT OF REACH OF CHILDREN
Net Contents: 1 QUART (946.3ml)

A non-toxic* surfactant for aid in coverage and penetration of landscape and aquatic plants. For use with herbicides, fungicides and algaecides.

Directions For General Use

- Mix 32oz. of Liquid Harvest Non-Ionic Surfactant with water to yield 100 gallons spray solution.
- Mix 8oz. of surfactant with water to yield 25 gallons spray solution.
- Mix 1 teaspoon of surfactant with water to yield 1 gallon spray solution.

For optimum results see recommended surfactant dosing for herbicide, fungicide, and algaecide.

Landscape Mode of Action

Aids in penetrating the plant cuticle. Use with all herbicides, fungicides, or algaecides that require a surfactant or sticking agent.

*When used as directed

**Best Used with Lazer
Spray Pattern Indicator**

Manufactured for Sanco Industries, Inc.
P.O. Box 11617 Fort Wayne, IN 46859
888-697-2626 • www.sancoind.com

Aquatic Mode of Action

Decreases surface tension for better absorption into the plant at its cellular level. Can be used with: Emerged Weed Herbicides, Floating Weed Herbicides, and Algaecides.

Spill Clean Up

Treat spills by soaking up as much of the product as possible using oil absorbent materials or rags.

Storage and Disposal

Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Rinse container and add rinse water to application tank. Store above 32°F. Do not use this product in a manner inconsistent with labeling.
