

Black

Lake & Pond Colorant
Toss N' Treat Water
Soluble Bag

This pouch includes (1) 6.8oz water soluble bag which treats 1/4 of an acre with an average depth of 4-6 feet deep. Reapply in 30 days or when color starts to fade. This product is designed to touch up faded pond dye. This is not designed to replace our Black Out liquid pond dye, but to assist in color depth and easy routine maintenance. Apply by opening outer foil bag, carefully remove water soluble bag, and toss bag into water. Handle bags with care. Dye in each bag is highly concentrated and will stain if broken open. Water soluble bags are very sensitive to moisture and will dissolve easily. Take caution by wearing gloves to avoid staining on hands. If on hands wash with a mild bleach water.

CAUTION:
KEEP OUT OF REACH OF CHILDREN

Treats 1/4 Acre
4-6 Feet Deep
