# Foam Max™

**Foam  
Concentrate**

## Product Information

Foam Max is formulated to achieve long lasting foam in a range of conditions. This product can handle hard water and high temperatures. This product is designed to be used with conventional agricultural foam generators. Foam Max provides high expansion foam with superior stability. Foam Max produces a thick foam of sufficient longevity under normal weather conditions to mark field applications of pesticides and fertilizers.

## Directions For Use

To ensure the best quality foam, clean out foam generator reservoir and lines before use. Use a tank cleaner for best performance. Do not use with other foam markers.

<u>Water Hardness</u>	<u>Use Rates</u>	<u>Water Vol.</u>
Soft Water (300-1000ppm)	2-3 pints	30-40 gallons
Hard Water (More than 1000ppm)	3-4 pints	30-40 gallons

## Warranty

Purchaser's and user's sole remedy against Sanco Industries, Inc for any cause of action related to the handling or use of this product shall be for damages, the amount of which shall not exceed the price paid for the product that causes the alleged loss, damages, injury or other claim. To the extent consistent with applicable law, in no event shall Sanco Industries, Inc be liable for special indirect, incidental or consequential damages or expenses. By purchasing or using this product purchaser or user accept the foregoing conditions of sale and limitation of warranty, liability and remedies.
