

Pit Stop works best on stains not previously treated with bleach. Pit Stop is formulated to dissolve and remove sweat stains and deodorant from clothing and hats, but works great as a general purpose stain remover.

Directions: Shake Well Before Use. Use Pit Stop to remove collar and armpit stains. For sensitive skin take caution when applying product and wear rubber gloves. Always test a small hidden surface of clothing for colorfastness. For use on whites and most clothing with colored fabric.

1. Lay clothing on an old towel.
2. Spray stained area from the inside and scrub with a small brush (be sure stain is saturated).
3. Let sit for 20 minutes and scrub again.
4. Wash separate from untreated clothing according to clothing specification. Repeat if stain is still present.

Pit Stop
