

# FOOD GRADE MINERAL OIL

**NSF Certified for Home & Commercial Use**

The NSF mark provides assurance that this product was impartially reviewed to established standards and confirms that the product labeling and claims have been objectively verified by a trusted third party.

Mineral Oil has 100's of household and industrial uses such as: maintaining and preserving wood food preparation surfaces, lubricating food processing machines, rust prevention for knives, stainless steel cleaner and many more. Mineral Oil will not break down and become rancid like vegetable oil. This is a food grade mineral oil that is colorless and odorless.
