Pro Mulch Glue

This product is a ready to use invisible bonding agent that will keep your mulch securely in place while still allowing water to drain. Tired of losing mulch due to rain? Are your animals making a mess of your mulch? Does your mulch get scattered in the wind? Use Pro Mulch Glue to keep your mulch, shells, sand, or pine straw looking great while saving you valuable time and money.

IMPORTANT TIP- Pro Mulch Glue is latex based and is extremely moisture sensitive. The surface needs to be completely dry or moisture will get trapped under glue film and create whiteness. Do not apply in mornings when dew is present. If whiteness occurs, it will be reduced in approximately 72 hours.

Directions: Only apply to dry terrain. **SHAKE PRODUCT WELL.** Pour product into sprayer. Apply product generously ensuring an even application. When applying to mulch **always** apply **2 coats**. Allow product to dry between coats waiting **at least** 1 hour between applications. This product is long lasting, fast-acting, and durable. When used as directed, Pro Mulch Glue will fully set in 4-6 hours after application and will last up to 12 months before reapplication is needed. **This product will NOT work on rubber mulch.**

Mulch Glue	Coverage
32 Ounces	Mulch- 125 sq. ft.
	Pine Straw- 150 sq. ft.
64 Ounces	Mulch- 250 sq. ft.
	Pine Straw- 300 sq. ft.
