

61.6% TRICLOPYR

61.6% Triclopyr is an herbicide that controls over 70+ types of brush, vines, brambles, and woody plants. For best results, apply when plants are fully bloomed and actively growing.

% ACTIVE INGREDIENTS
Triclopyr (3,5,6-trichloro-2-pyridinyloxyacetic acid), butoxyethyl ester.....61.6%

PACKAGING
Quart, Half Gallon, Gallon, 2.5 Gallon

APPLICATION INFORMATION

FOLIAGE SPRAY

Mix 4 - 8 oz. of Triclopyr in enough water to make one gallon of mixed spray. Add 1 tsp. of surfactant for best results. Mixture will cover approximately 500 sq. ft. of area.

STUMP TREATMENT

To kill stumps and prevent sprouting, apply the undiluted product with a paintbrush or backpack sprayer to completely cover the freshly cut surface. Do not reuse paint brush. Wrap in several layers of newspaper and discard in trash.

VINE CONTROL

When treating vines such as poison oak, poison ivy, etc. that grow on or around desirable plants, do not allow spray to contact desirable vegetation. Cut the vine first and treat as directed for stump treatment.

WEEDS CONTROLLED

*Refer to label for full list of weeds controlled
