Pro Grub Control is an insecticide for turfgrass, landscape ornamentals, fruit and nut trees, and interior plantscapes.

% ACTIVE INGREDIENTS

Imidacloprid, 1-[(6-Chloro-3-pyridinyl) methyl]-N-nitro-2-imidazolidinimine....21.4%

PACKAGING

Quart

APPLICATION INFORMATION

Turfgrass: Apply 1.25 to 1.6 pints per acre (0.46 to 0.6 fl. oz. per 1,000 sq. ft.). Make application prior to egg hatch of grubs, billbugs, annual bluegrass weevil, and European Crane Fly to maximize control.

Foliar application to ornamentals: Apply 1.5 fl. oz. per 100 gallons of water. Make foliar applications before high pest populations become established. Reapply on an as-needed basis.

See label for other application rates and methods.
